certain intellectual property known as energy marketplace.

Summary: LATE FILED. On May 4, 2001, Judy Peck, Sempra Energy State Regulatory Relations Administrator, representing Southern California Gas Company (SoCalGas), had a telephone conversation with Linda Serizawa, advisor to Cmmr. Wood. Peck stated that SoCalGas is very concerned that the draft decision would find a willful violation of a clear Commission order. Peck stated that SoCalGas deeply values its reputation with the Commission as well as with other parties. Peck requested that the Commission characterize SoCalGas' failure to remove the electricity platform from the Energy Marketplace web site as a misunderstanding rather than action taken with "clear knowledge that it was operating without Commission approval."

05/10/01 A00-11-012 San Diego Gas & Electric Company, for authority to continue low income assistance programs and funding through 2001.

Summary: On May 8, 2001, Athena Besa of San Diego Gas & Electric Company's (SDG&E) Consumer Programs and Services, participated in two separate telephone conferences with ALJ Gottstein. Other participants included Barbara Cronin of SDG&E's Consumer Programs and Services, Joy Yamagata and Margee Moore of the Sempra Energy (Sempra) Regulatory Affairs Department. In the first telephone conference also participated Vicki Thompson, attorney of the Sempra Law Department, and in the second telephone conference – Leslie Katz of Sempra Affairs Department. During the first conference, Besa provided an explanation of SDG&E's low income shareholder mechanism and how SDG&E uses the mechanism to calculate the resulting earnings. During the second conference, representatives of SDG&E presented via e-mail a written description (attached to the notice) of SDG&E's low income mechanism was used.

05/10/01 A00-04-031 Southern California Gas Company, for authority to sell its storage field in Montebello.

Summary: On May 9, 2001, Judy Peck, Sempra Energy, State Regulatory Relations Administrator, representing Southern California Gas Company (SoCalGas), met with Laura Krannawitter, advisor to Cmmr. Duque, in San Francisco. Peck stated that the California Department of Fish and Game, and the U.S. Fish and Wildlife Service are scheduled to visit the Montebello site on May 10, 2001 and that SoCalGas is very hopeful that the visit will clarify the withdrawal operations and resolve the environmental concerns. Peck stated that SoCalGas does not see any reason for Protocol Surveys to be required prior to the withdrawal of the cushion gas. Peck expressed the

concern that if Protocol Surveys were required prior to gas withdrawal, then this gas could not be made available for the 2001 summer and 2001/2002 winter.

	A00-11-056	Pacific Gas and Electric Company, emergency application to adopt a rate stabilization plan.
	A00-10-028	The Utility Reform Network, for modification of Resolution E-3527.

Summary: On May 10, 2001, James Weil, Director of Aglet Consumer Alliance (Aglet), met with Cmmr. Brown in San Francisco. Also present were David Gamson, advisor to Cmmr. Brown, and Robert Finkelstein, Supervising Attorney of The Utility Reform Network (TURN). Weil noted that Aglet and TURN are the only active parties in the rate design phase that represent solely the interests of residential and small commercial customers. Weil stated that Aglet prefers the proposed decision (PD) of ALJ Walwyn to the alternate of Cmmr. Lynch, principally concerning allocation of revenue shortfalls caused by the statutory exemption from rate increases of residential usage below 130% or baseline amounts. Weil stated that the exemption is a legislated subsidy, and recovery of shortfalls is more like a tax than allocation of costs caused by any customer class. Weil stated that the allocation method in the alternate seems arbitrary. Weil stated that Aglet supports the Federal usage pilot program in the alternate, but Aglet is concerned that the alternate lacks findings, conclusions and ordering paragraphs. Finkelstein stated that TURN also prefers the PD. Finkelstein explained that recovery of shortfalls due to subsidies is sometimes confined to specific customer classes by statute, but there is no such limitation for the exemption of use below 130% of baseline. Finkelstein noted that CARE program shortfalls are assigned to all other customer classes. Finkelstein stated TURN's concern that not charging the instant surcharge to direct access customers might cause utility undercollections if direct access providers return their customers to utility service.

Summary: On May 8, 2001, Keith McCrea, counsel for the California Manufacturers & Technology Association (CMTA), had a telephone conversation with Ann Watson, advisor to Cmmr. Bilas. McCrea stated that CMTA supports allocation of costs using the Top 100 Hours method and opposes the equal cents per kWh method. McCrea further stated that CMTA believes that the shortfall arising from the 130% baseline exemption should remain within the residential class and that this case will be critical in determining the overall impact of these rate increases on the California economy.
